Coder Academy

ACHIEVEMENTS

March 2019 Received a scholarship from Academy of Information Technology
“Creative Minds Scholarship” awarded to the student who holds a high mark and is highly passionate about study.

EXPERIENCE

*November 2018 – Current Team App
Position: Software Developer*

- Lead a new project that manages sports competitions using Ruby on Rails and Vue.js.
- Respond to clients' requests to ensure high customer satisfaction.
- Monitor the service and optimize the code to reduce the memory usage and improve its performance.
- Implement the project's core functionality that generates competition fixtures automatically.
- Find solutions to fulfill functions that cannot be solved by algorithms used in the project.
- Collaborate on other services, showing the ability to quickly adapt and contribute to an established project.

*February 2018 – March 2018 Mystic Pants
Position: Developer Internship*

- Developed a WordPress plugin using React and PHP to allow users to visualise the output from an environment monitor device.
- Created a manual explaining how to integrate the plugin to the WordPress application.
